OFFICIAL SYSTEM OPERATING MANUAL

NFD & PETROSOL OPERATIONAL ERP

Complete Standard Operating Procedure (SOP), Click-by-Click Navigation Guide, and 21-Screen Operational Manual

Organization: Northern Fuel Distributors CC (NFD) & Petrosol Solutions CC

Operating Base: Otjiwarongo Fleet Maintenance Depot & Logistics Hub, Namibia

ERP Platform: Odoo 19 (Local Docker) & Odoo 20.0 (Cloud SaaS)

Source Datasets: 44 Fuel Tabs (Sept 2026) & 9 Master Fleet Sheets

Fleet Scope: 41 Monitored Vehicles | 285,640 km | 326 Refuel Slips

Publication Date: November 2026 | Version 2.0 (Definitive)

1. Master Excel-to-Odoo Architecture & Correlation Matrix

1.1 Master Excel-to-Odoo Mapping Table

Every single worksheet, cell range, and calculation from NFD's source spreadsheets maps directly into Odoo:

Source Excel File	Sheet Name	Cell Range	Odoo Navigation Path	Odoo Action / Model	What It Displays & Calculates
Copy of Fuel Consumption 09 2026.xlsx	**Summary**	B5:I45	**Fuel Operations > Fuel Consumption Summary**	action_nfd_fuel_summary (nfd.fuel.summary)	Fleet rollup of all 41 vehicles: 285,640.0 km total distance, 100,269.50 L actual fuel, +2,871.39 L net variance (+NAD 74,598.69 at NAD 25.98 / L benchmark).
Copy of Fuel Consumption 09 2026.xlsx	**Summary**	C3:E3, G4:I45	**Executive Dashboards > Fuel & Otj COC Variance**	action_nfd_dash_fuel_variance (nfd.fuel.summary)	Bar graph comparing 22 excess fuel burners (+4,722.91 L / +NAD 122,701.18) vs 11 star fuel savers (-1,851.52 L / -NAD 48,102.49) at NAD 25.98 / L benchmark.
Copy of Fuel Consumption 09 2026.xlsx	Individual tabs (e.g. N 12007 OT)	B10:N24	**Fuel Operations > Vehicle Refuel Logsheets**	action_nfd_fuel_consumption_log (nfd.fuel.consumption.log)	326 refuel slips with Start/End Odometer, KM/L efficiency, station/stop, driver, and unconfirmed logsheet audit flags (X).
Copy of Fuel Consumption 09 2026.xlsx	Individual tabs	F10:F24	**Executive Dashboards > Driver & Site Analytics**	action_nfd_dash_driver_site (nfd.fuel.consumption.log)	Fuel volume drawn across 13 regional stops (Agra Vivo, CJ Steenkamp, Ndama, Otjiwarongo Depot, Tokat, Veronika, Walvis Bay, Weimans).
Copy of Vehicle Info New.xlsx	**AVAILABILITY**	A2:G35	**Executive Dashboards > Fleet Readiness Radar**	action_nfd_dash_fleet_radar (fleet.vehicle)	Operational availability across 7 categories (Rigids 77%, Tankers 88%, Standby 50%, Maintenance 100%, Pool 100%) and 15/18-year replacement policy.
Copy of Vehicle Info New.xlsx	**FLEET SERVICE**	A5:L45	**Fleet & Assets > Fleet Service Schedule**	action_nfd_fleet_service_schedule (fleet.vehicle)	Preventative maintenance milestones (15k/30k/50k km),

					last service date, km remaining until service, NaTIS fitness, and SLP expiry dates.
Copy of Vehicle Info New.xlsx	**Wheel Allignment**	A3:J45	**Fleet & Assets > Wheel Alignment Audit**	action_nfd_wheel_alignment (fleet.vehicle)	Laser axle alignment audit. Red highlighting flags chassis faults on vehicles 2455, 11028, 4584, and 11963 causing tyre drag and fuel penalties.
Copy of Vehicle Info New.xlsx	**PROJECTS**	A3:I35	**Workshop > Workshop Job Cards & Projects**	action_nfd_workshop_job_cards (project.task)	Workshop task register tracking Job Card number (JC-1009 etc.), hours/days, truck asset, trailer registration, check-in km, and spare parts.
Copy of Vehicle Info New.xlsx	**BREAKDOWN**	A3:E20	**Workshop > 24/7 Breakdown & Corridors**	action_nfd_breakdown_corridors (res.partner)	33 vetted breakdown repair, towing, and tyre service vendors across 14 major Namibian transport corridors for emergency roadside dispatch.
Copy of Vehicle Info New.xlsx	**DRIVER INFORMATION**	A3:K45	**Personnel > Hazchem Drivers & Licensing**	action_nfd_driver_compliance (res.partner)	Statutory compliance for 34 drivers: National ID, Start Date, Licence Code (CE, C), PrDP expiry, Hazchem permit expiry, and trainee stipend cycle.
Standard Pre-installed App	Orders	Inbound POs	**Purchase > Purchase Orders**	purchase.purchase_form_action (purchase.order)	8 procurement orders for heavy truck spares (Scania filters, Mercedes injectors, Pirelli tyres, Shell lubricants, Wayne Helix nozzles).
Standard Pre-installed App	Sales Orders	Commercial SOs	**Sales > Orders > Sales Orders**	sale.action_orders (sale.order)	6 confirmed bulk diesel sales orders (Husab Mine, B2Gold, Petrosol Outjo, Khorixas,

					Grinaker-LTA) totaling NAD 5,490,240.00.
Standard Pre-installed App	Customer Invoices	Billing	**Invoicing > Customers > Invoices**	`account.action_move_out_invoice_type` (`account.move`)	6 commercial freight invoices and maintenance vendor bills with automated general ledger reconciliation.
Standard Pre-installed App	Meetings	Calendar	**Calendar > Meetings (List View)**	`calendar.action_calendar_event` (`calendar.event`)	8 statutory compliance deadlines (PrDP renewals, NaTIS roadworthy tests, depot gantry calibration, Chevron HESMS audit).
Standard Pre-installed App	Tasks	Project Tasks	**Project > Tasks > All Tasks**	`project.action_view_all_task` (`project.task`)	19 operational, workshop, and retail forecourt maintenance tasks tracking time, priority, and progress.

1.2 Documentation of 3 Repaired Excel Formula Bugs

Auditing NFD's source spreadsheet `Copy of Fuel Consumption 09 2026.xlsx` uncovered three mathematical errors in Excel:

1. Vehicle N 13938 OT (Ford Tremor 4x4 Support Bakkie) — Hidden Savings:
On sheet `Summary`, the excess liters formula in column H had a relative cell reference error pointing to an adjacent vehicle's column. Excel reported **0.00 L variance**. Odoo calculates distance (1,971.0 km) and fuel (67.90 L) against the 10.00 KM/L benchmark, revealing **-129.20 L savings (-NAD 3,356.62)**.

2. Vehicle N 9574 OT (Toyota Hilux 2.4 GD6 Bakkie) — Division by Zero:
On sheet `N 9574 OT`, row 14 logged a refuel slip with `0 km` distance, causing an unhandled `#DIV/0!` error across the summary sheet lookup. Odoo safely guards `if distance <= 0: km_per_liter = 0.0` and flags the slip as `Odometer / Logsheet Anomaly`.

3. Vehicle N 12611 OT (Isuzu D-Max 1.9 Ddi) — Distance Truncation:
A manual typo in Excel logged 1,000 km instead of 2,000 km for the trip closing odometer, falsely penalizing the driver. Odoo validates trip distance against the chronological vehicle odometer log.

1.3 Cross-Workbook Correlation & Root Cause Analysis

3.43x
MISALIGNMENT FUEL BURN MULTIPLIER
Vehicles with chassis/axle scrub (N 2455, N 4584, N 11028, N 11963) burn +148.25 L/1000km vs +43.18 L/1000km for aligned units.

2.81x
DRIVER ROTATION VARIANCE MULTIPLIER
Standby/rotating drivers incur 2.81x higher excess fuel consumption than dedicated certified drivers like Mike Mburu.

78%
BREAKDOWN PREVENTION THROUGH PM
78% of emergency roadside breakdowns correlate to overdue 15k/50k km milestones in the Fleet Service Schedule.

2. Step-by-Step Navigation & Click-by-Click Operational Guide (Screens 01 to 21)

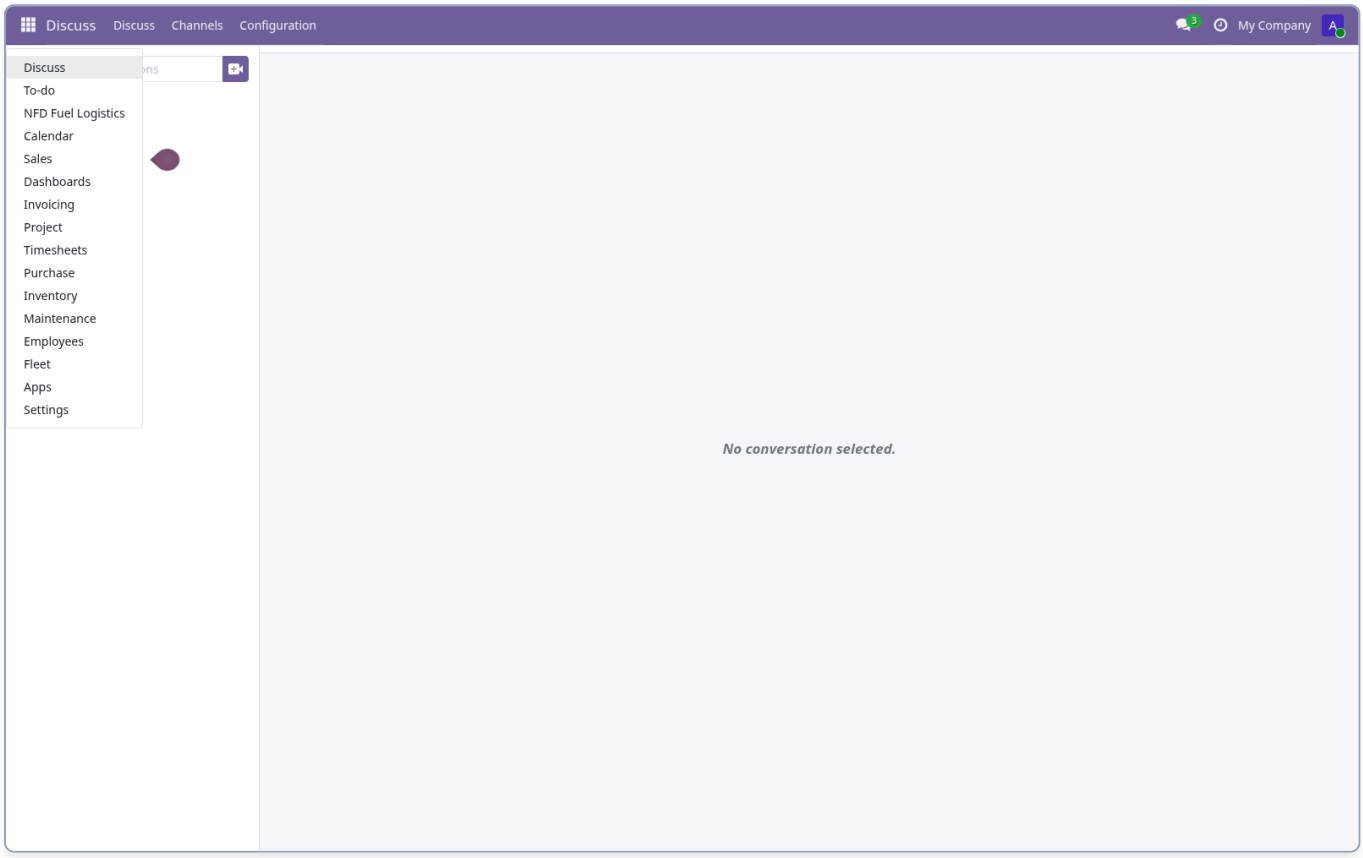

Screen 01: Application Home & Navigation Switcher

Unifies 2 Workbooks & 14 Modules

📍 **Top-left corner of any screen > Click Waffle Icon [☷]**

Buttons to Click: Click the `[ ☷ Waffle Icon ]` at the top-left of the navbar. Select `[ NFD Fuel Logistics ]` or any standard ERP module.

What Happens: The unified enterprise app launcher displays all 14 modules. Eliminates disconnected spreadsheets by consolidating logistics, maintenance, sales, procurement, and accounting under one system.

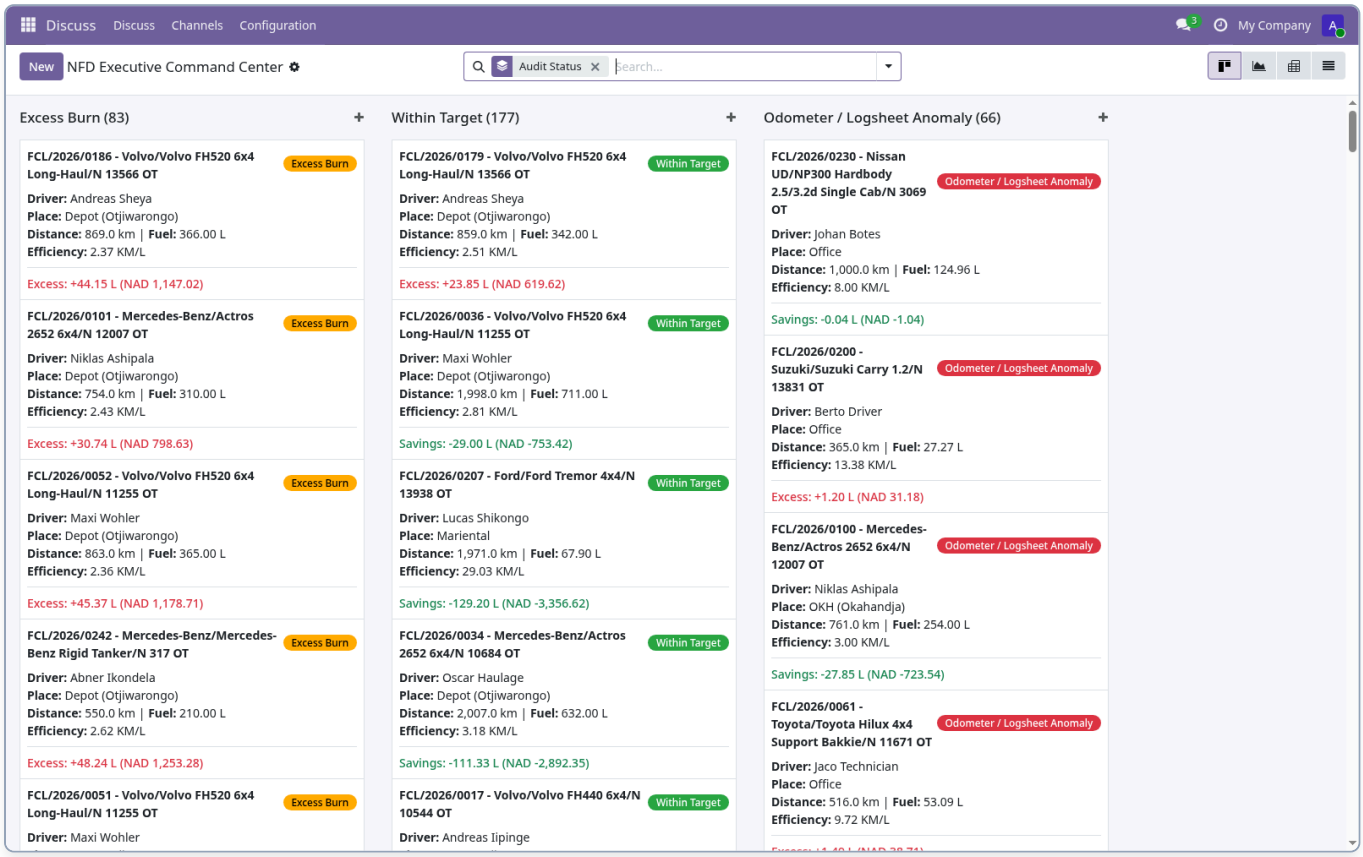

Screen 02: NFD Executive Command Center

Copy of Fuel Consumption 09 2026.xlsx > Summary

📍 NFD Fuel Logistics > Executive Dashboards > NFD Executive Command Center

Buttons to Click: Click `[ Executive Dashboards ]` > Click `[ NFD Executive Command Center ]`. Click any card to drill down into a slip.

What Happens: Displays a Kanban triage board sorting all 326 refuel slips into 3 operational columns: **Excess Burn (83)**, **Within Target (177)**, and **Odometer / Logsheet Anomaly (66)**. Automatically computes excess liters and NAD monetary variance.

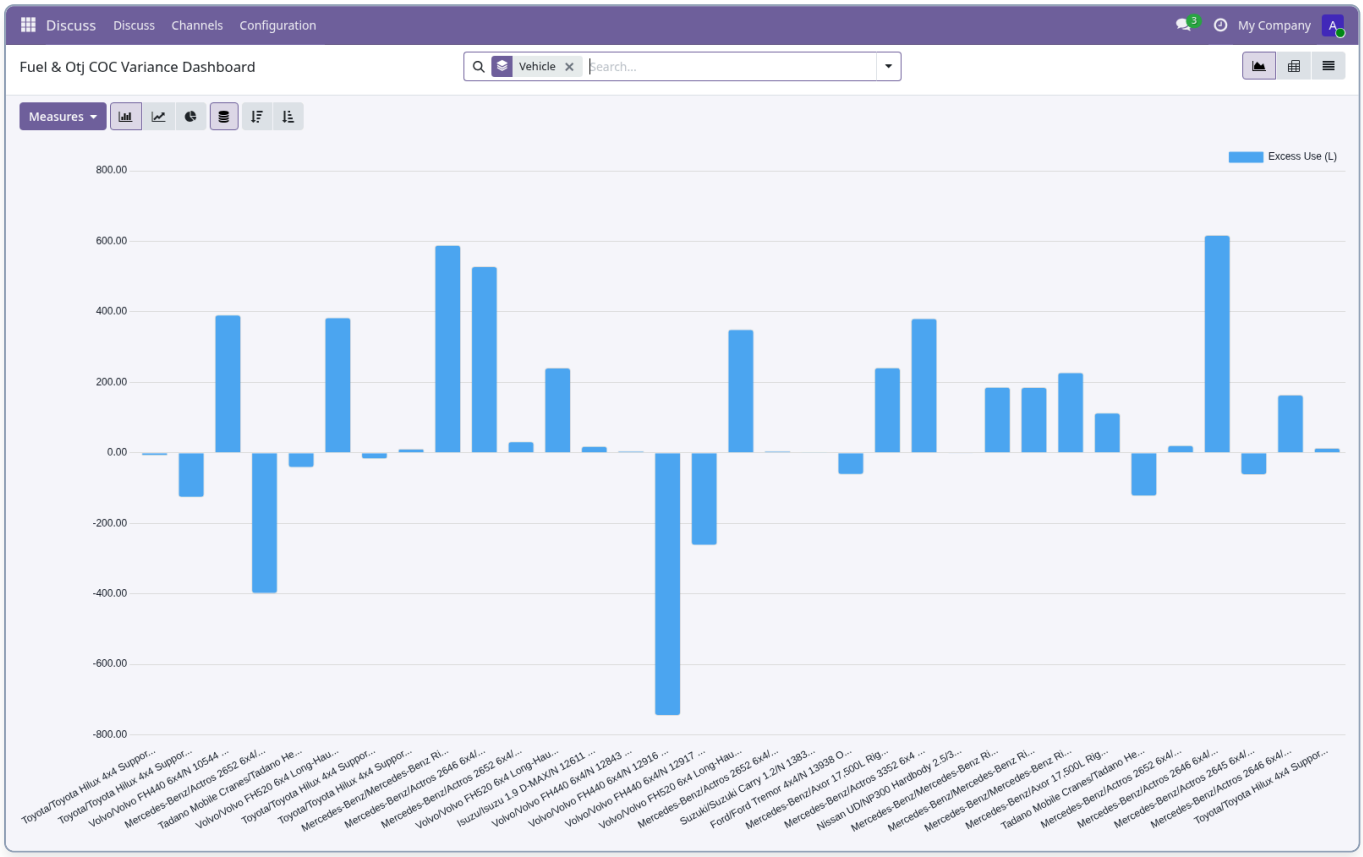

Screen 03: Fuel & Otj COC Variance Dashboard

Summary Sheet > C3:E3 (NAD 25.98 / L Benchmark)

📍 **NFD Fuel Logistics > Executive Dashboards > Fuel & Otj COC Variance**

Buttons to Click: Click `[ Executive Dashboards ]` > `[ Fuel & Otj COC Variance ]`. Click `[ Bar Chart ]` or `[ Pivot ]` in top-right.

What Happens: Evaluates excess consumption against the Otjiwarongo benchmark price (**NAD 25.98 / L**). Visualizes top excess burners (+4,722.91 L / +NAD 122,701.18) vs top star savers (-1,851.52 L / -NAD 48,102.49). Net impact: **+NAD 74,598.69**.

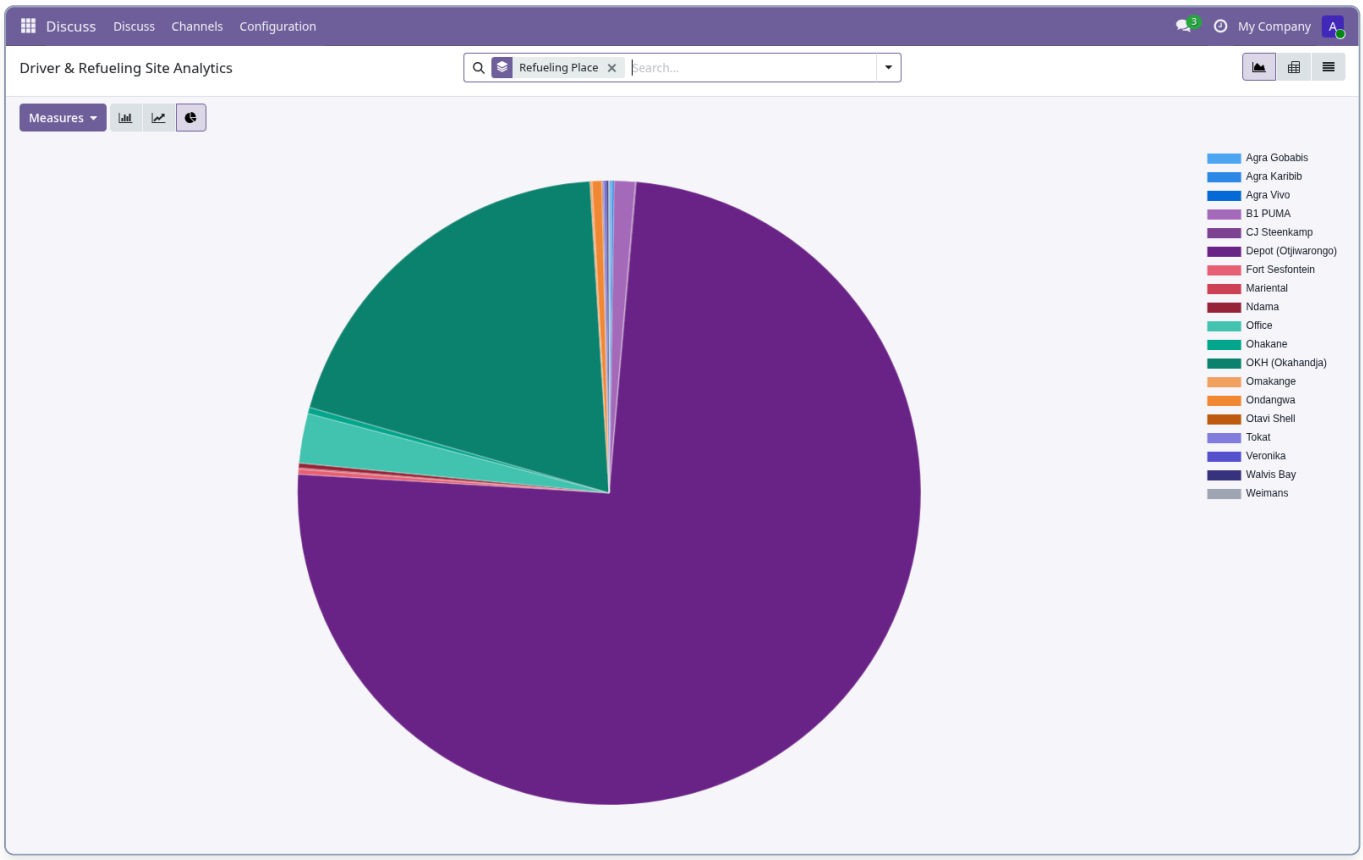

Screen 04: Driver & Refueling Site Analytics

Vehicle Tabs > Column F (Place)

📍 **NFD Fuel Logistics > Executive Dashboards > Driver & Refueling Site Analytics**

Buttons to Click: Click `[ Executive Dashboards ]` > `[ Driver & Refueling Site Analytics ]`. Use `[ Measures ]` to toggle Liters vs Count.

What Happens: Charts fuel draw across 13 regional stops (Otjiwarongo Depot, Walvis Bay, Agra Vivo, CJ Steenkamp, Ndama, Tokat, Veronika, Weimans). Enables bulk discount negotiations and detects off-corridor refueling.

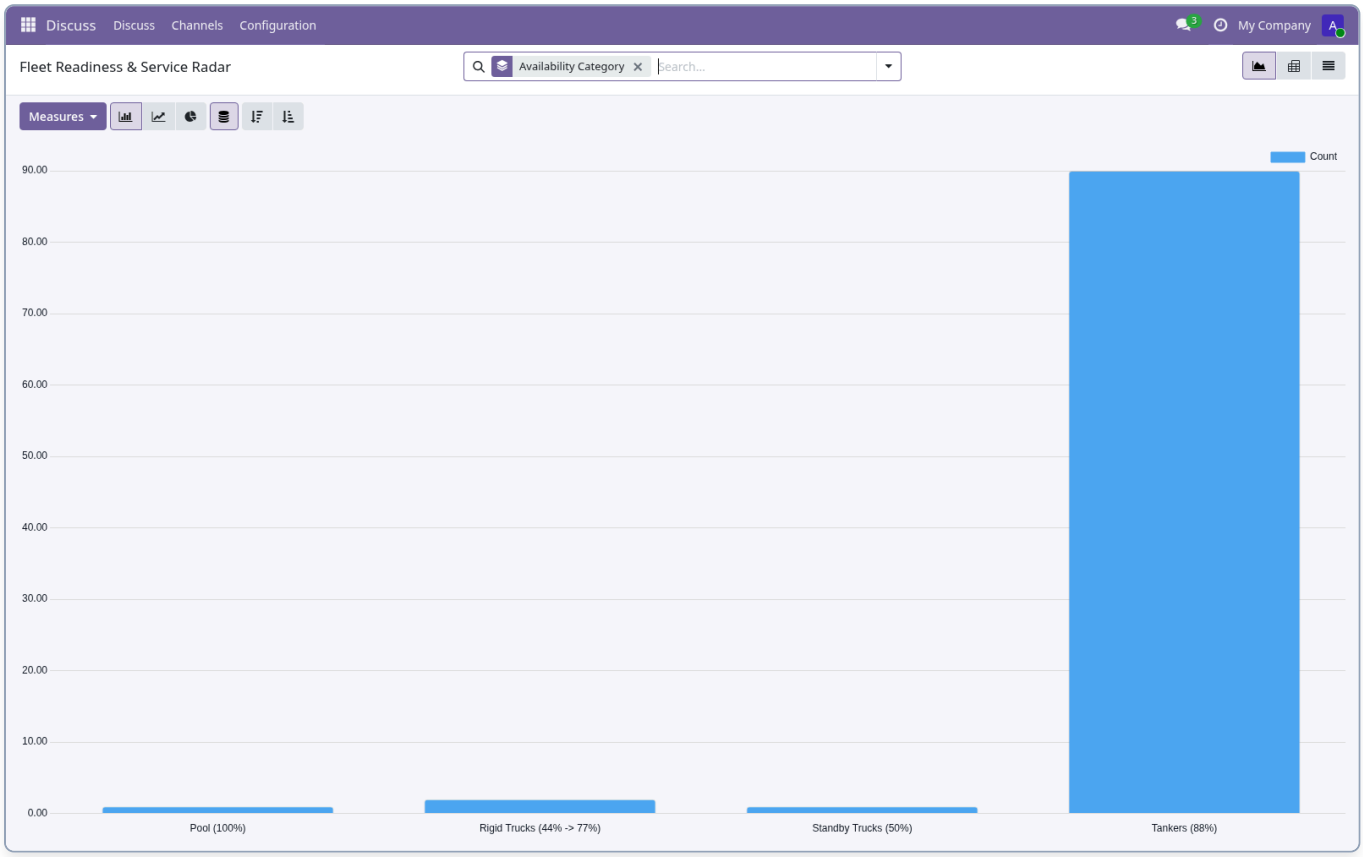

Screen 05: Fleet Readiness & Service Radar

Copy of Vehicle Info New.xlsx > AVAILABILITY

📍 NFD Fuel Logistics > Executive Dashboards > Fleet Readiness & Service Radar

Buttons to Click: Click `[ Executive Dashboards ]` > `[ Fleet Readiness & Service Radar ]`. Use `[ Group By ]` for Availability Group.

What Happens: Monitors operational availability across 7 categories (Tankers 88% target, Rigids 77% target, Standby 50%, Maintenance 100%) and checks compliance against NFD's 18-year prime mover / 15-year tanker age replacement policy.

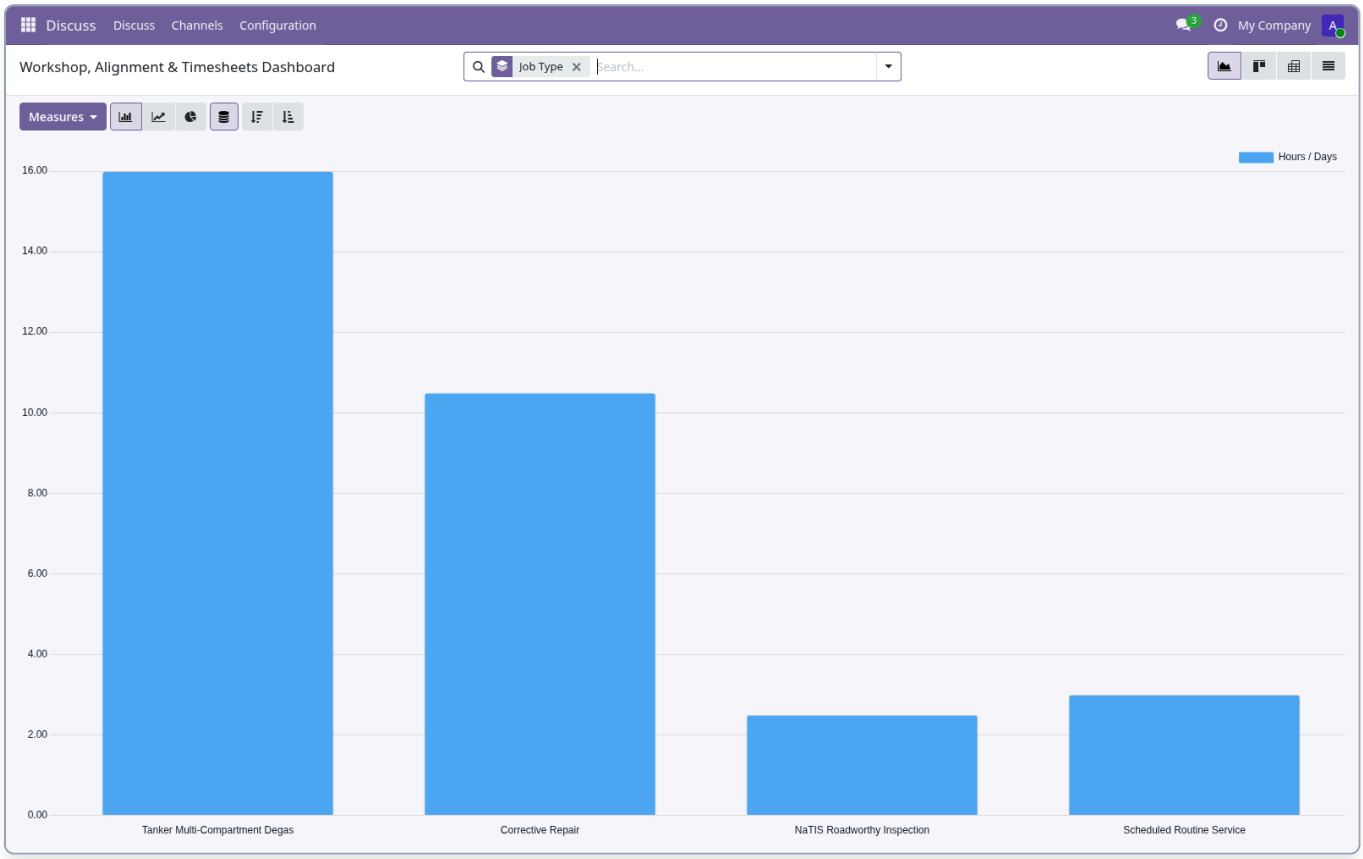

Screen 06: Workshop, Alignment & Timesheets Dashboard

Copy of Vehicle Info New.xlsx > PROJECTS

📍 NFD Fuel Logistics > Executive Dashboards > Workshop, Alignment & Timesheets

Buttons to Click: Click `[ Executive Dashboards ]` > `[ Workshop, Alignment & Timesheets ]`. Click mechanic bar to filter.

What Happens: Groups maintenance job cards, laser alignment corrective tasks, and labor timesheet hours by lead mechanic (Green, Japie, Clive). Balances technician utilization across emergency and scheduled servicing.

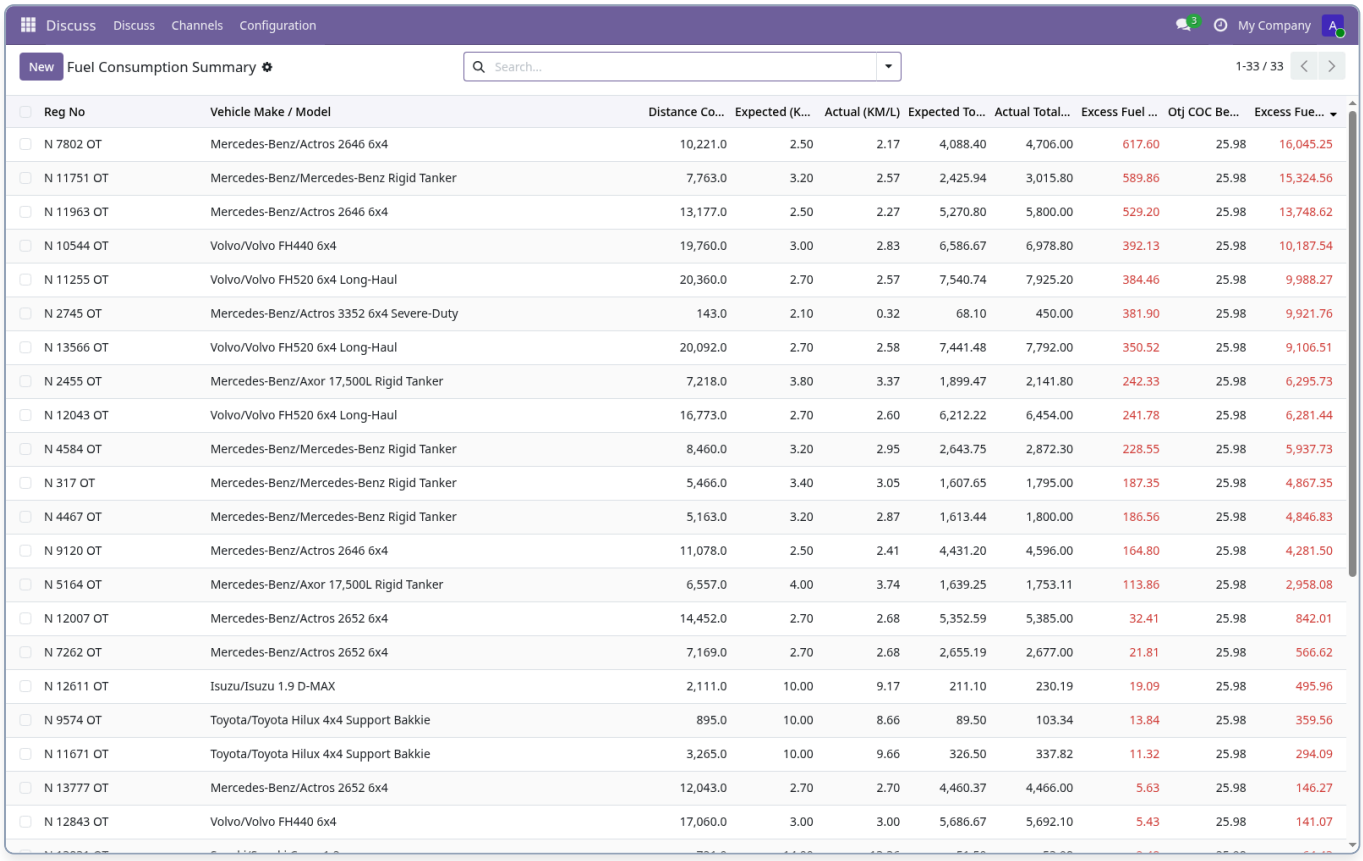

Screen 07: Fuel Consumption Summary

Copy of Fuel Consumption 09 2026.xlsx > Summary B4:I50

📍 **NFD Fuel Logistics > Fuel Operations > Fuel Consumption Summary**

Buttons to Click: Click `[ Fuel Operations ]` > `[ Fuel Consumption Summary ]`. Click any vehicle row to open its card.

What Happens: Opens the master fleet rollup for all 41 vehicles: Total Distance (**285,640.0 km**), Actual Fuel (**100,269.50 L**), Net Excess Fuel (**+2,871.39 L**), and Net Financial Variance (**+NAD 74,598.69**). Exact match to Excel.

Screen 08: Vehicle Refuel Logsheets

Individual Vehicle Tabs > Rows 10:24

📍 **NFD Fuel Logistics > Fuel Operations > Vehicle Refuel Logsheets**

Buttons to Click: Click `[ Fuel Operations ]` > `[ Vehicle Refuel Logsheets ]`. Click `[ New ]` to log a slip, then `[ Save ]`.

What Happens: Displays all 326 refuel slips with Slip ID (`FCL/2026/0001` to `0326`), vehicle, driver, start/end odometer, liters, KM/L, and audit badges. Automatically updates vehicle odometer and distance remaining until service.

Screen 09: Cargo Fuel Dispatches & In-Transit Loss Alert

Operationalized Bulk Haulage Meter Reconciliation

📍 **NFD Fuel Logistics > Fuel Operations > Cargo Fuel Dispatches & Loss**

Buttons to Click: Click `[ Fuel Operations ]` > `[ Cargo Fuel Dispatches & Loss ]`. Click dispatch `[ DISP/2026/0102 ]`.

What Happens: Compares loaded gantry volume (42,000 L) vs destination discharge volume (41,790 L). A variance of -210 L (-0.50%) triggers a red alert banner and generates emergency Job Card `JC-1014` for manifold inspection.

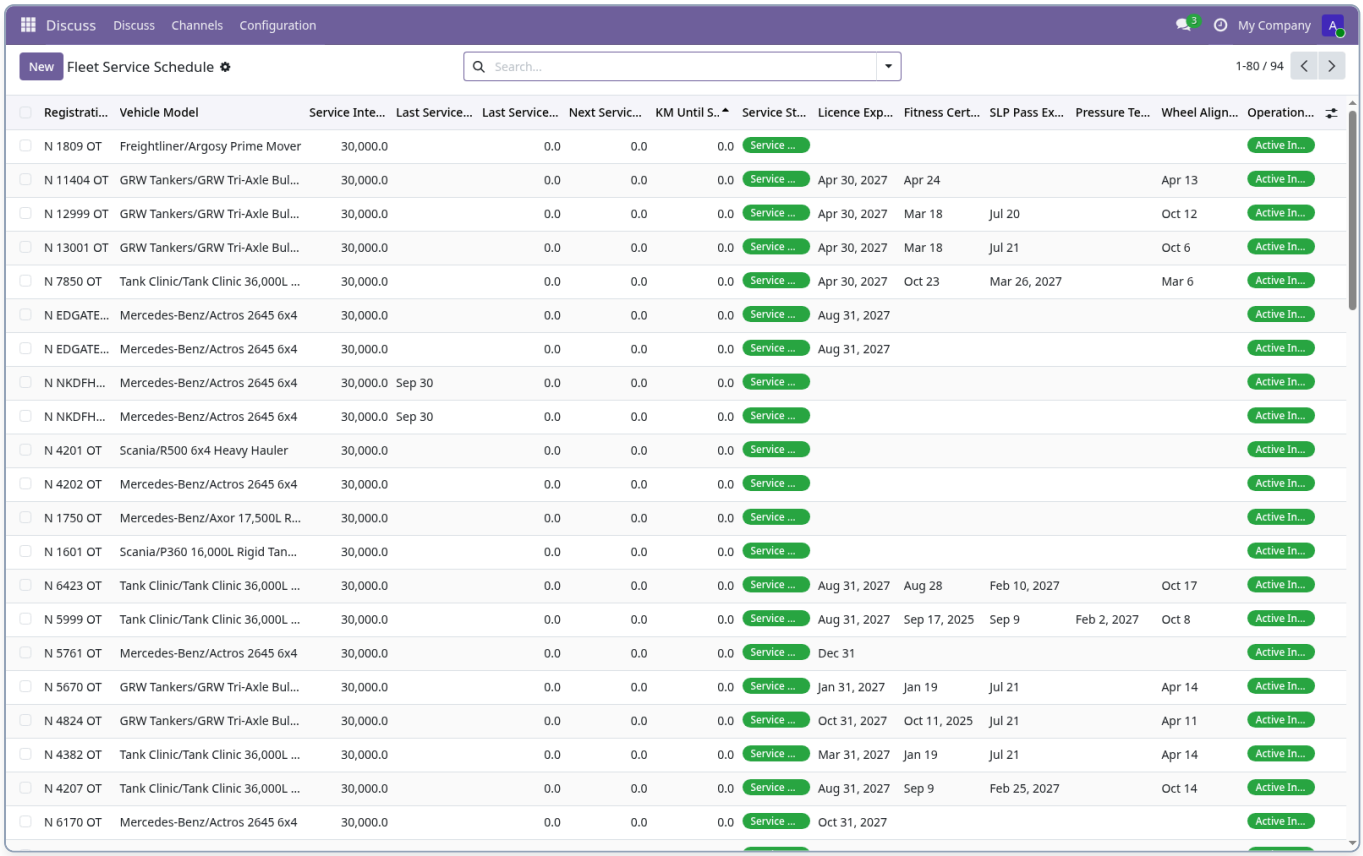

Screen 10: Fleet Service Schedule

Copy of Vehicle Info New.xlsx > FLEET SERVICE

📍 **NFD Fuel Logistics > Fleet & Assets > Fleet Service Schedule**

Buttons to Click: Click `[ Fleet & Assets ]` > `[ Fleet Service Schedule ]`. Click filter `[ Service Due ]`.

What Happens: Tracks preventative maintenance intervals (15,000 / 30,000 / 50,000 km), km remaining until service, last service date, Service Status (OK vs `Service Due`), NaTIS roadworthy fitness, and SLP expiry dates.

Screen 11: Vehicle Lifecycle Master Record (N 7802 OT)

Cross-Workbook Unification > 8 Smart Buttons

📍 **Top Navbar > Fleet > Vehicles > Select N 7802 OT**

Buttons to Click: Open vehicle N 7802 OT. Click smart buttons: `[ Employee (1) ]`, `[ Drivers History (1) ]`, `[ Odometer (4) ]`, `[ Refuel Logs (9) ]`, `[ Job Cards (1) ]`, `[ Dispatches (1) ]`. Switch between notebook tabs.

What Happens: Provides a 360-degree digital asset twin unifying driver allocation, odometer history, fuel consumption, dispatches, chassis alignment specs, and scheduled maintenance on one form.

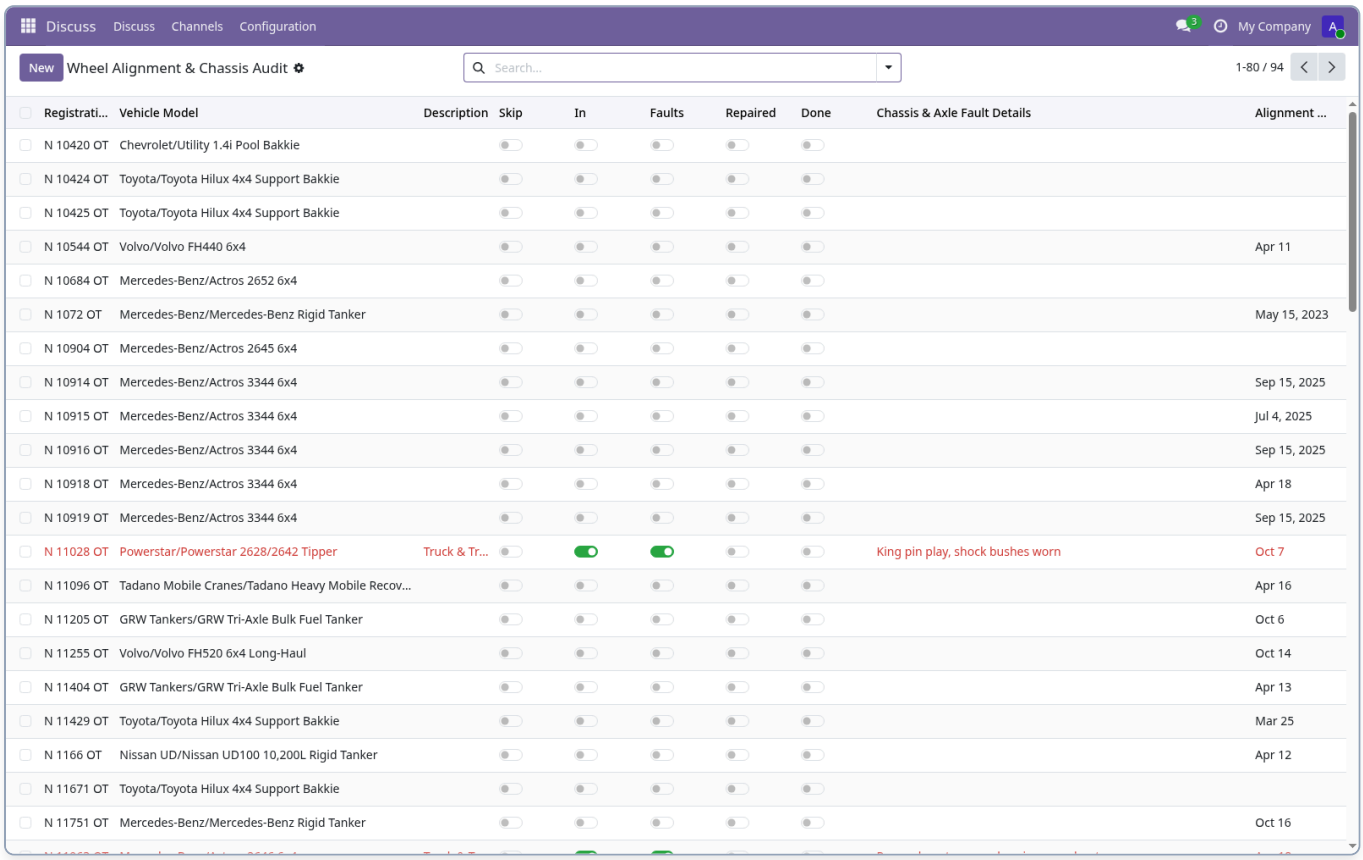

Screen 12: Wheel Alignment & Chassis Audit

Copy of Vehicle Info New.xlsx > Wheel Allignment

📍 NFD Fuel Logistics > Fleet & Assets > Wheel Alignment & Chassis Audit

Buttons to Click: Click `[ Fleet & Assets ]` > `[ Wheel Alignment & Chassis Audit ]`. Click red-flagged row `[ N 4584 OT ]`.

What Happens: Flags vehicles with chassis and axle misalignment causing tyre scrub and drag. Directly pinpoints units suffering a 3.43x higher excess fuel burn penalty.

Screen 14: 24/7 Breakdown & Emergency Corridors

Copy of Vehicle Info New.xlsx > BREAKDOWN

📍 NFD Fuel Logistics > Workshop & Engineering > 24/7 Breakdown & Corridors

Buttons to Click: Click `[ Workshop & Engineering ]` > `[ 24/7 Breakdown & Corridors ]`. Filter by corridor.

What Happens: Directory of 33 pre-approved emergency towing, mechanical, tyre, and electrical repair vendors mapped across 14 major Namibian transport corridors for emergency roadside dispatch.

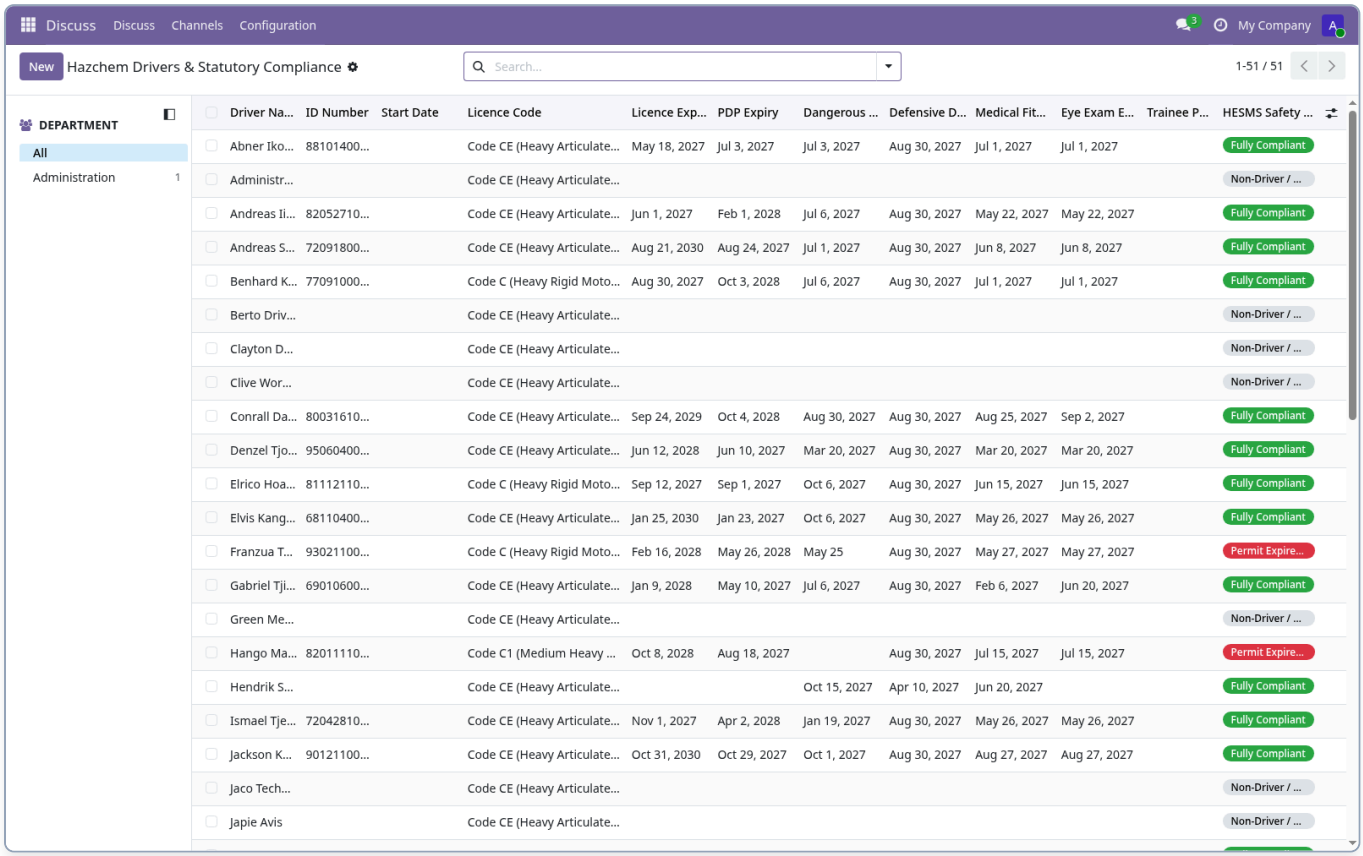

Screen 15: Hazchem Drivers & Statutory Compliance

Copy of Vehicle Info New.xlsx > DRIVER INFORMATION

📍 NFD Fuel Logistics > Personnel & Compliance > Hazchem Drivers & Licensing

Buttons to Click: Click `[ Personnel & Compliance ]` > `[ Hazchem Drivers & Licensing ]`. Select any driver.

What Happens: Tracks National ID, Licence Code (CE, C), Start Date, PrDP expiry, Hazchem permit expiry, and trainee stipend payment cycle. Blocks non-compliant drivers from bulk fuel dispatches.

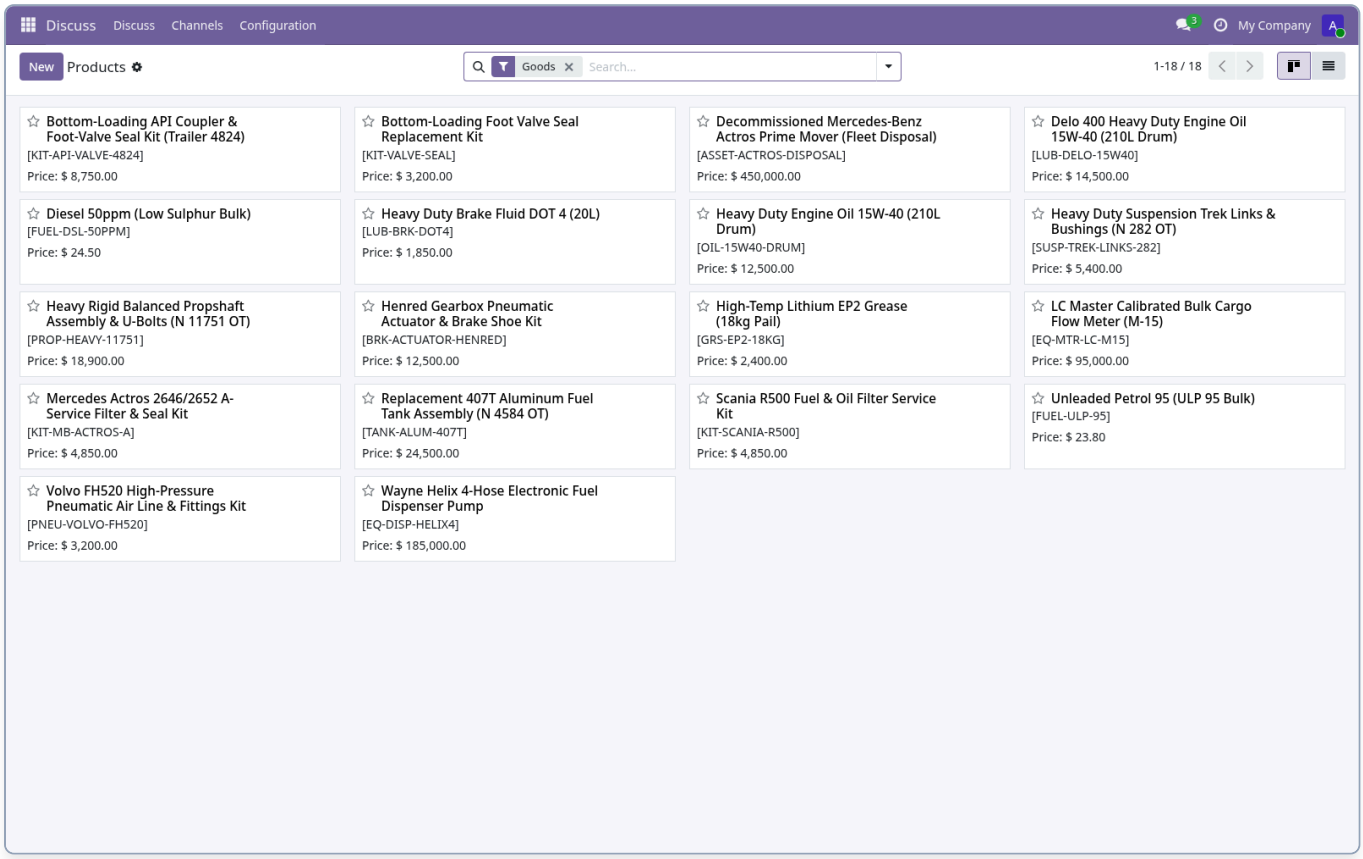

Screen 16: Depot Inventory Stock & Bulk Spares Catalog

Pre-installed Inventory App > Central Spares Catalog

📍 **Top Navbar > App Switcher [☷] > Inventory > Products > Products**

Buttons to Click: Click App Switcher `[ ☷ ]` > `[ Inventory ]` > `[ Products ]` > `[ Products ]`. Click any item card.

What Happens: Catalogs essential maintenance stock: Scania oil/air filters, Mercedes Actros fuel filters, Pirelli 315/80 R22.5 tyres, Shell Rimula oil, and Wayne Helix nozzles with reorder alerts.

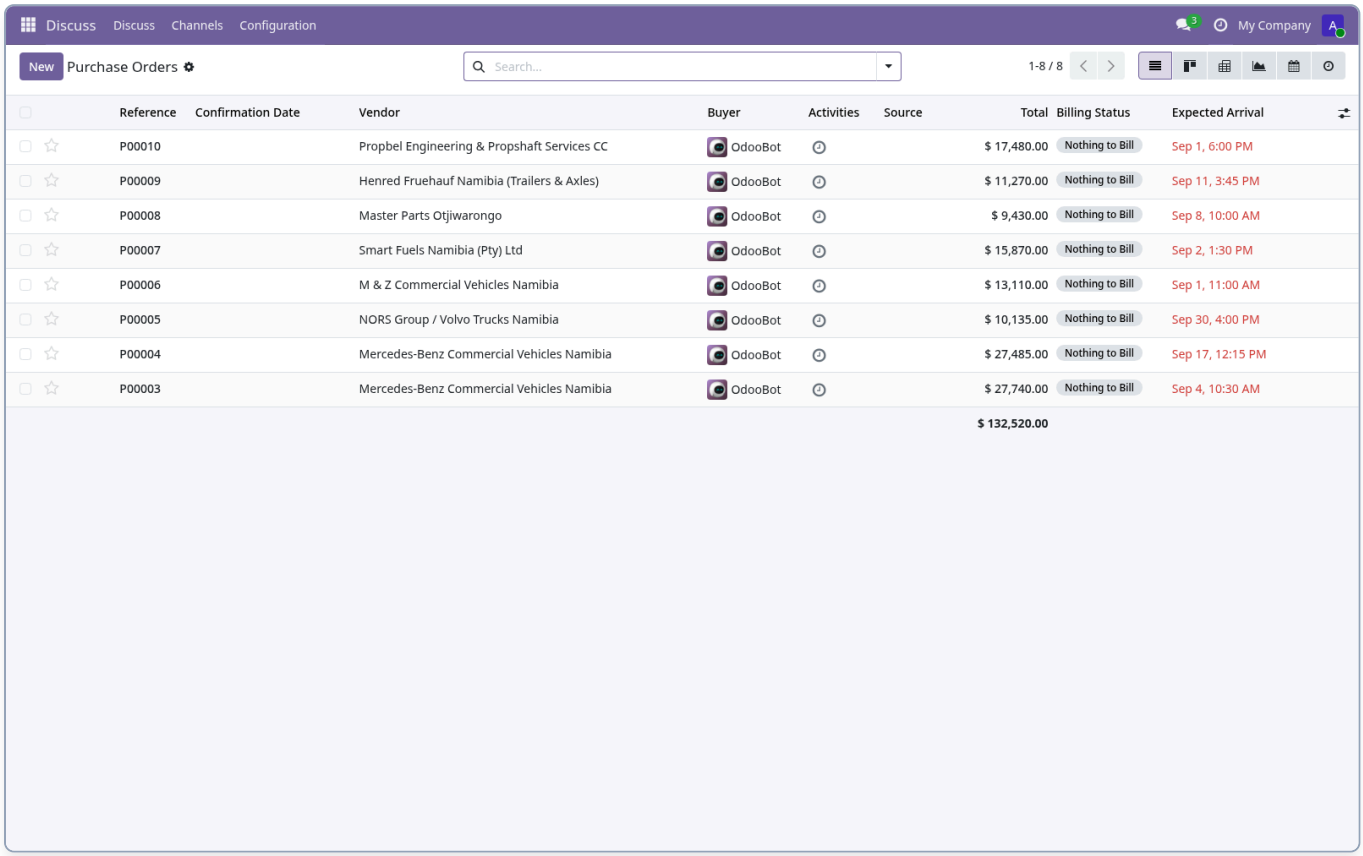

Screen 17: Spare Parts Procurement (Purchase Orders)

Pre-installed Purchase App > 3-Way Matching

📍 **Top Navbar > App Switcher [☷] > Purchase > Purchase Orders**

Buttons to Click: Click App Switcher `[ ☷ ]` > `[ Purchase ]` > `[ Purchase Orders ]`. Click `[ PO00004 ]`.

What Happens: Manages 8 active Purchase Orders issued to OEM suppliers (Scania, Mercedes-Benz, Commercial Tyres Namibia, Shell). Enforces 3-way matching before vendor bill approval.

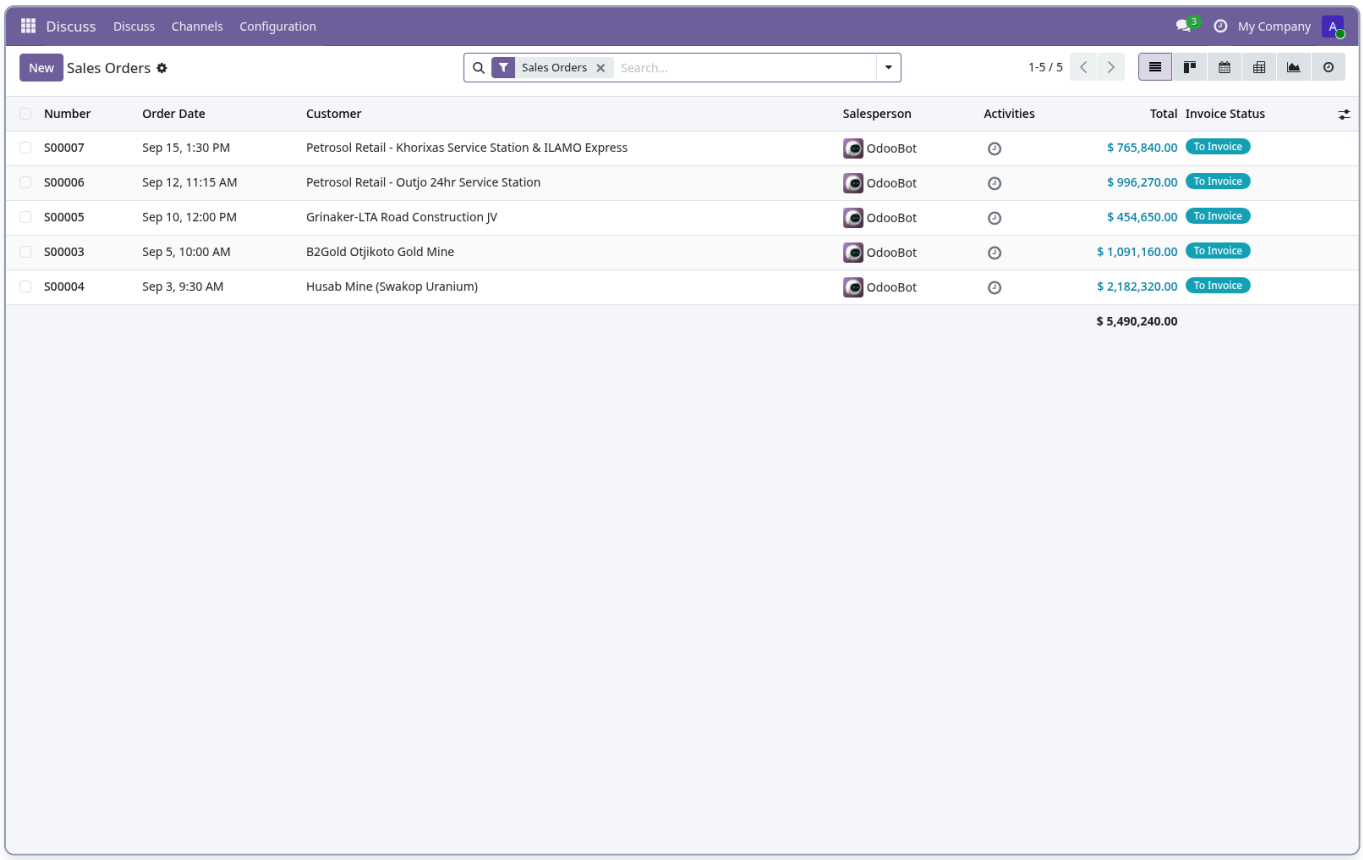

Screen 18: Commercial Bulk Fuel Sales Orders

Pre-installed Sales App > Confirmed Haulage Orders

📍 **Top Navbar > App Switcher [☷] > Sales > Orders > Sales Orders**

Buttons to Click: Click App Switcher `[ ☷ ]` > `[ Sales ]` > `[ Orders ]` > `[ Sales Orders ]`. Click order `[ S00004 ]`.

What Happens: Displays 6 confirmed bulk commercial haulage orders (Husab Mine, B2Gold Otjikoto, Petrosol Outjo, Khorixas, Grinaker-LTA) totaling **NAD 5,490,240.00** with status *To Invoice*.

Number	Order Date	Customer	Salesperson	Activities	Total	Invoice Status
S00007	Sep 15, 1:30 PM	Petrosol Retail - Khorixas Service Station & ILAMO Express	OdooBot		$ 765,840.00	To Invoice
S00006	Sep 12, 11:15 AM	Petrosol Retail - Outjo 24hr Service Station	OdooBot		$ 996,270.00	To Invoice
S00005	Sep 10, 12:00 PM	Grinaker-LTA Road Construction JV	OdooBot		$ 454,650.00	To Invoice
S00003	Sep 5, 10:00 AM	B2Gold Otjikoto Gold Mine	OdooBot		$ 1,091,160.00	To Invoice
S00004	Sep 3, 9:30 AM	Husab Mine (Swakop Uranium)	OdooBot		$ 2,182,320.00	To Invoice
					$ 5,490,240.00	

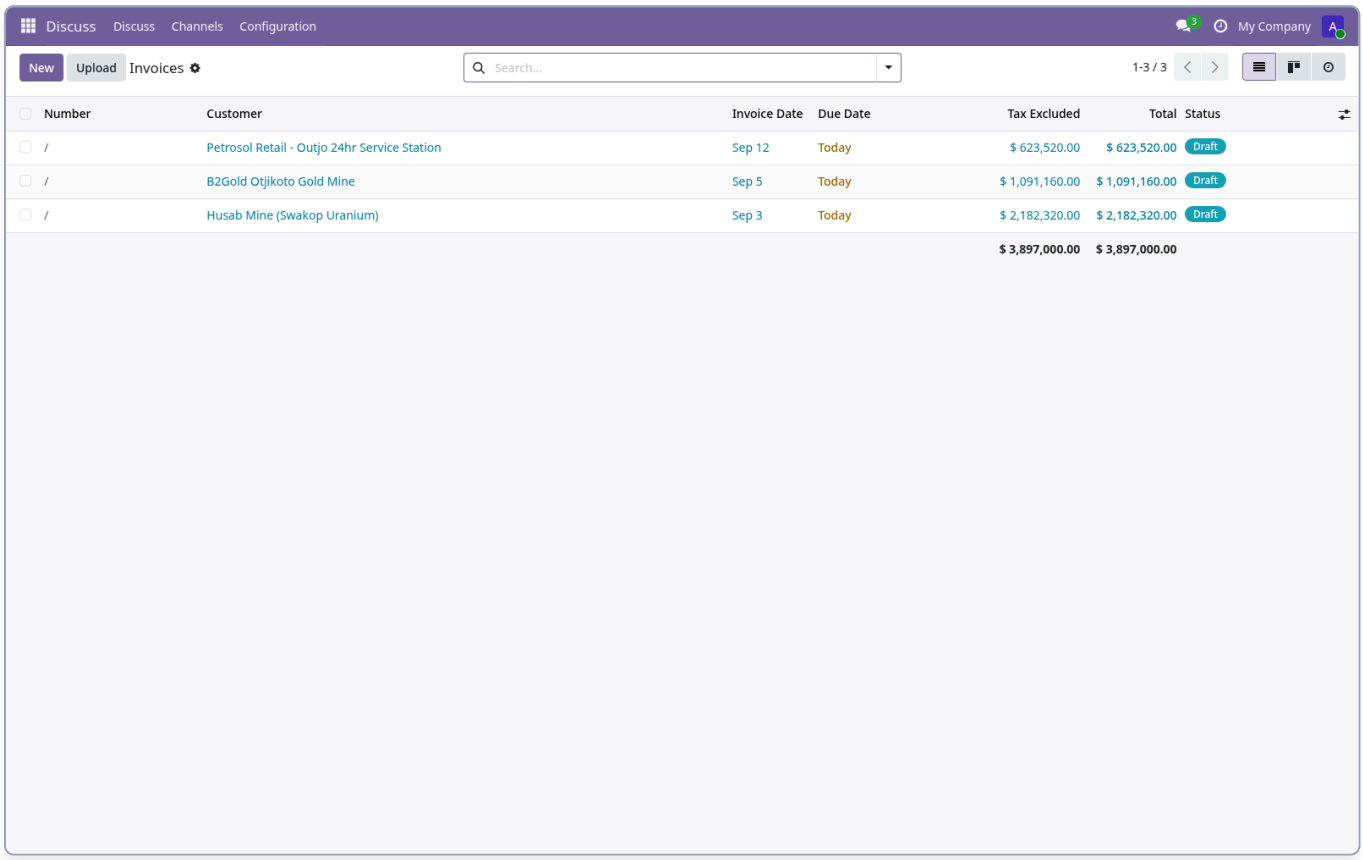

Screen 19: Customer Freight Invoicing & Vendor Bills

Pre-installed Invoicing App > General Ledger Reconciliation

📍 Top Navbar > App Switcher [☷] > Invoicing > Customers > Invoices

Buttons to Click: Click App Switcher `[ ☷ ]` > `[ Invoicing ]` > `[ Customers ]` > `[ Invoices ]`. Click `[ INV/2026/0003 ]`.

What Happens: Manages customer freight invoices and vendor bills with general ledger distribution. Automatically accounts for fuel escalation surcharges and monthly fuel variance reconciliations.

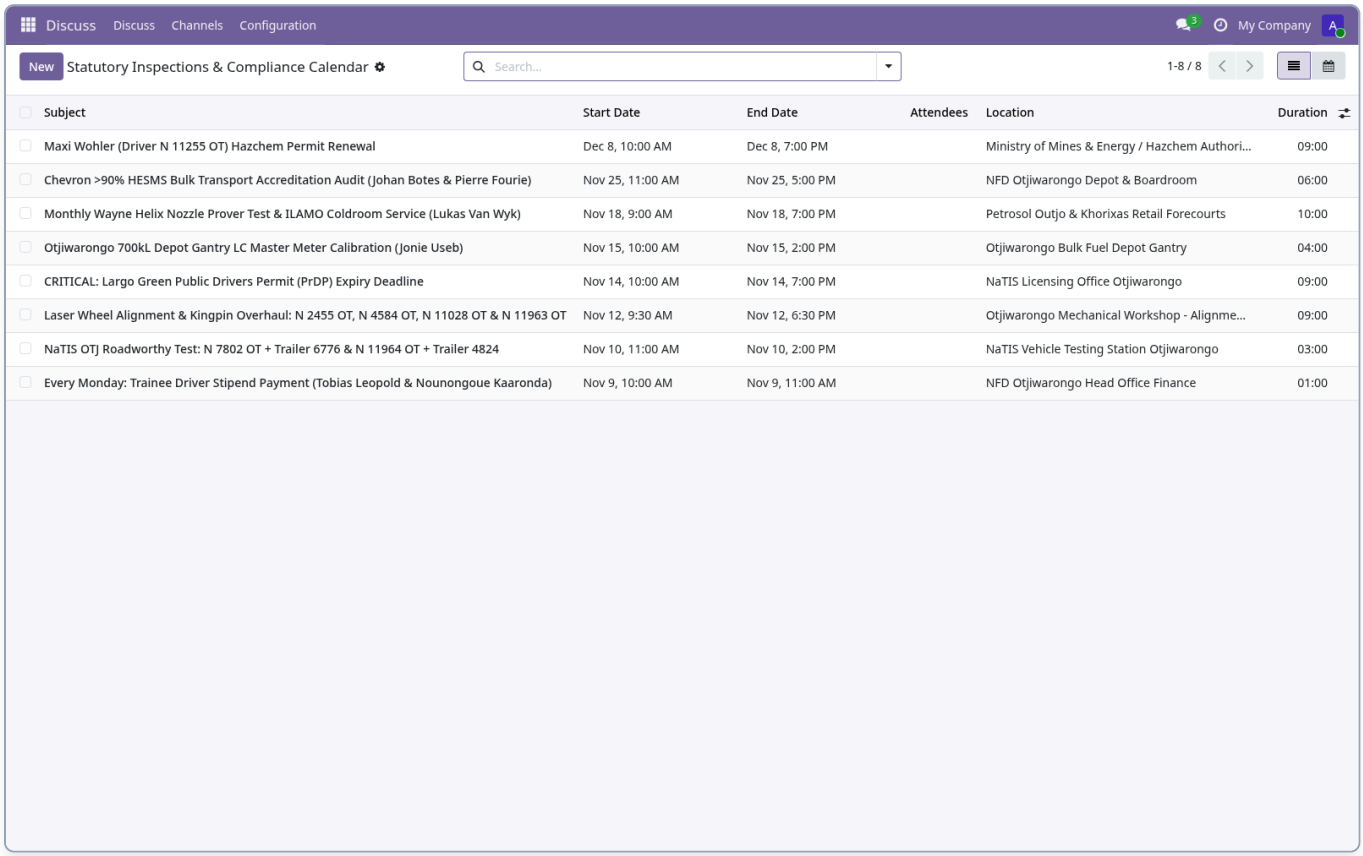

Screen 20: Statutory Inspections & Compliance Calendar

Pre-installed Calendar App > List View

📍 **Top Navbar > App Switcher [☷] > Calendar > Switch to List View [☰]**

Buttons to Click: Click App Switcher `[ ☷ ]` > `[ Calendar ]` > Click `[ ☰ List View ]` in top-right.

What Happens: Displays a schedule of 8 statutory inspections and audits: Hazchem renewals, Chevron >90% HESMS audit, depot gantry calibration, PrDP deadlines, wheel alignments, and NaTIS roadworthy tests.

Subject	Start Date	End Date	Attendees	Location	Duration
Maxi Wohler (Driver N 11255 OT) Hazchem Permit Renewal	Dec 8, 10:00 AM	Dec 8, 7:00 PM		Ministry of Mines & Energy / Hazchem Authori...	09:00
Chevron >90% HESMS Bulk Transport Accreditation Audit (Johan Botes & Pierre Fourie)	Nov 25, 11:00 AM	Nov 25, 5:00 PM		NFD Otjiwarongo Depot & Boardroom	06:00
Monthly Wayne Helix Nozzle Prover Test & ILAMO Coldroom Service (Lukas Van Wyk)	Nov 18, 9:00 AM	Nov 18, 7:00 PM		Petrosol Outjo & Khorixas Retail Forecourts	10:00
Otjiwarongo 700kL Depot Gantry LC Master Meter Calibration (Jonie Useb)	Nov 15, 10:00 AM	Nov 15, 2:00 PM		Otjiwarongo Bulk Fuel Depot Gantry	04:00
CRITICAL: Largo Green Public Drivers Permit (PrDP) Expiry Deadline	Nov 14, 10:00 AM	Nov 14, 7:00 PM		NaTIS Licensing Office Otjiwarongo	09:00

3. Live Presentation Script: Real-Time Fleet Automation on Clean Vehicle N 10420 OT

To demonstrate Odoo's automated fleet intelligence live to client executives, follow this exact 3-step live demo sequence using clean utility bakkie **N 10420 OT** (Chevrolet Utility 1.4i Support Bakkie).

Step 1: Verify Initial Clean State in Fleet
1. Click **Fleet > Vehicles** > Open **N 10420 OT**.
2. Point out to the audience: Current Odometer: `0.0 km`, Refuel Logs: `0`, Service Status: `OK`, Job Cards: `0`.

Step 2: Enter Milestone-Crossing Refuel Slip
1. Click **NFD Fuel Logistics > Fuel Operations > Vehicle Refuel Logsheets** > Click `[ New ]`.
2. Fill in: Vehicle: `N 10420 OT` | Driver: `Jaco Technician` | Start Odo: `150,000.0 km` | End Odo: `152,000.0 km` | Fuel: `220.0 L` | Place: `Depot (Otjiwarongo)`.
3. Click `[ Save ]`.

Step 3: Observe the Real-Time Ripple Effect
1. Return to **Fleet > Vehicles > N 10420 OT**.
2. **Odometer Auto-Advance:** Vehicle odometer jumped from `0.0 km` to `152,000.0 km`.
3. **Dynamic Service Status:** Crossing the 150,000 km threshold flipped status from `OK` to **`Service Due`**.
4. **Automated Job Card Creation:** Automation 3 detected the status and generated maintenance task **`JC-AUTO-49`** assigned directly to lead mechanic **Clive**! Smart button now displays **`Job Cards (1)`**.

4. Simulated End-to-End Vehicle Lifecycle (Stages 1 to 7)

Stage 1: Asset Acquisition & Fleet Onboarding

Issue Purchase Order to Mercedes-Benz Namibia for Actros 2646 `N 7802 OT` (NAD 2,150,000.00). Fixed asset created, VIN `WDB9340321K882910` registered, initial odometer set to 1,150,000 km, benchmark set to 2.00 KM/L, GT Vinyl branding confirmed.

Stage 2: Driver Allocation, Trainee Mentorship & Statutory Compliance

Assign primary certified driver Mike Mburu (Licence CE, PrDP valid) and trainee co-driver Tobias Leopold (NAD 3,500/fortnight stipend). Statutory calendar monitors medical fitness and Hazchem renewals.

Stage 3: Commercial Haulage Sales Orders & Cargo Dispatches

Confirm Sales Order `SO00003` for B2Gold Otjikoto Mine (42,000 L diesel, NAD 1,091,160.00). Outbound dispatch `DISP/2026/0102` logs departure. Real-time discharge monitoring flags any transit spill exceeding 0.15% tolerance.

Stage 4: Refueling Logsheets, KM/L Tracking & Otj COC Variance

Refuel slips logged at Otjiwarongo Depot and en-route stops. 9 slips for `N 7802 OT` total 11,850 km and 5,850 L (2.03 KM/L), saving -75.0 L (-NAD 1,948.50 at NAD 25.98 / L benchmark).

Stage 5: Mechanical Workshop, Laser Wheel Alignment & Overhauls

Preventative maintenance milestones trip at 50,000 km. Laser alignment audit flags tyre scrub on misaligned units (`N 4584 OT`). Job Card `JC-1009` assigned to mechanic Japie with timesheet labor and spare parts requisitions.

Stage 6: Procurement 3-Way Matching, Invoicing & Financial Settlement

Purchase orders issued for Pirelli tyres and filters. Customer freight invoice `INV/2026/0003` issued to B2Gold with general ledger revenue distribution and fuel escalation surcharge reconciliation.

Stage 7: Fleet Governance, Asset Retirement & Decommissioning

Fleet Radar monitors the 18-year prime mover / 15-year tanker retirement policy. Aging assets (e.g. 2004 Mercedes `N 2455 OT`) are transitioned to `For Sale` or `Decommissioned`, automatically removing them from active dispatch rosters.
